## **1. ORGANIZATION**

Managed Portfolio Series (the “Trust”) was organized as a Delaware statutory trust under a Declaration of Trust dated January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Reinhart Mid Cap PMV Fund (the “Mid Cap Fund”), Reinhart Genesis PMV Fund (the “Genesis Fund”) and Reinhart International PMV Fund (the “International Fund”) (each a “Fund” and collectively, the “Funds”) are each a diversified series with their own investment objectives and policies within the Trust. The investment objective of the Funds is long-term capital appreciation. The Funds are investment companies and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Board Codification Topic 946 Financial Services – Investment Companies. The Mid Cap Fund commenced operations on June 1, 2012, the Genesis Fund commenced operations on June 1, 2018 and the International Fund commenced operations on June 1, 2022. The Mid Cap Fund currently offers three classes of shares, the Investor Class, Advisor Class and the Institutional Class. The Mid Cap Fund Institutional Class commenced operations on September 29, 2017. The Genesis Fund currently offers two classes of shares, the Investor Class and the Advisor Class. The International Fund currently offers one class of shares, the Advisor Class. Investor Class shares are subject to a 0.25% Rule 12b-1 distribution and servicing fee. The Investor Class and Advisor Class shares are subject to a maximum 0.15% shareholder servicing fee. Each class of shares has identical rights and privileges except with respect to the distribution fees and voting rights on matters affecting a single share class. The Funds may issue an unlimited number of shares of beneficial interest, with no par value.

## **2. SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of significant accounting policies consistently followed by the Fund in preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

**Security Valuation** – All investments in securities are recorded at their estimated fair value, as described in Note 3.

**Federal Income Taxes** – The Funds comply with the requirements of subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Funds. Therefore, no federal income tax provision is required. As of and during the period end November 30, 2025, the Funds did not have any tax positions that did not meet the “more-likely-than-not” threshold of being sustained by the applicable tax authority. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statements of Operations. As of and during the period end November 30, 2025, the Funds did not incur any interest or penalties. The Funds are not subject to examination by U.S. tax authorities for tax years prior to the period end May 31, 2022.

**Foreign Taxes** – The Funds may be subject to foreign taxes (a portion of which may be reclaimable) on income, stock dividends, realized and unrealized capital gains on investments, or certain foreign currency transactions. Foreign taxes are recorded in accordance with Management’s understanding of the applicable foreign tax regulations and rates that exist in the foreign jurisdictions in which the Funds invest. These foreign taxes, if any, are paid by the Funds and are reflected in the Statements of Operations, if applicable. Foreign taxes payable or deferred as of November 30, 2025, if any, are disclosed in the Funds’ Statements of Assets and Liabilities.

**Security Transactions and Investment Income** – The Funds follow industry practice and record security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Funds’ understanding of the applicable country’s tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities using the constant yield method.

The Funds distribute all net investment income, if any, and net realized capital gains, if any, annually. Distributions to shareholders are recorded on the ex-dividend date. The Funds may utilize earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction. The treatment for financial reporting

---

purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Funds.

**Foreign Currency** – Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and translations of foreign currency. The Funds report net realized foreign exchange gains or losses that arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

**Use of Estimates** – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Allocation of Income, Expenses and Gains/Losses** – Income, expenses (other than those deemed attributable to a specific share class), and gains and losses of the Funds are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of each Fund. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Fund expenses are allocated by class based on relative net assets. Shareholder servicing fees are expensed at an annual rate up to 0.15% of Investor Class and Advisor Class shares and 12b-1 fees are expensed at 0.25% of average daily net assets of Investor Class shares (See Note 5). Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between the funds of the Trust, or by other equitable means.

**New Accounting Pronouncements** – In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). This change is intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses, allowing financial statement users to better understand the components of a segment’s profit or loss and assess potential future cash flows for each reportable segment and the entity as a whole. The amendments expand a public entity’s segment disclosures by requiring disclosure of significant segment expenses that are regularly provided to the chief operating decision maker (“CODM”), clarifying when an entity may report one or more additional measures to assess segment performance, requiring enhanced interim disclosures and providing new disclosure requirements for entities with a single reportable segment, among other new disclosure requirements. Management has evaluated the impact of adopting ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures with respect to the financial statements and disclosures and determined there is no material impact for the Fund. The Fund operates as a single segment entity. The Fund’s income, expenses, assets, and performance are regularly monitored and assessed by the Chief Compliance Officer at the Adviser, who serves as the chief operating decision maker, using the information presented in the financial statements and financial highlights.

### **3. SECURITIES VALUATION**

The Funds have adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion of changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to each Funds' major categories of assets and liabilities measured at fair value on a recurring basis. The Funds' investments are carried at fair value.

**Equity Securities** – Equity securities, including common stocks, preferred stocks, exchange-traded funds (“ETFs”) and real estate investment trusts (“REITs”) that are primarily traded on a national securities exchange are valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for which market quotations are readily available are valued using the Nasdaq Official Closing Price (“NOCP”). If the NOCP is not available, such securities are valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

In the case of foreign securities, the occurrence of events after the close of foreign markets, but prior to the time the Funds' NAV is calculated will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. The Funds will value foreign securities at fair value, taking into account such events in calculating the NAV. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating the Funds' NAV in advance of the time the NAV is calculated. All foreign securities, with the exception of Canadian and Mexican securities and those listed on a U.S. exchange, have an adjustment applied to their trade price and therefore are automatically deemed to be in Level 2 of the fair value hierarchy.

**Rights and Warrants** – Rights and warrants are valued at the last reported sale price on the exchange which they are traded. If they are not actively traded on the exchange, a fair value will be applied and they will be categorized in Level 3 of the fair value hierarchy.

**Short-Term Investments** – Investments in other mutual funds, including money market funds, are valued at their net asset value per share. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

The Board of Trustees (the “Board”) has adopted a pricing and valuation policy for use by the Funds and their Valuation Designee (as defined below) in calculating the Funds' NAV. Pursuant to Rule 2a-5 under the 1940 Act, the Funds have designated Reinhart Partners, LLC (the “Adviser”) as their “Valuation Designee” to perform all of the fair value determinations as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are unreliable.

(the "Custodian") serves as the custodian to the Funds. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Funds. The officers of the Trust, including the Chief Compliance Officer, are employees of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Funds, subject to annual minimums. Fees paid by the Funds for administration and accounting, transfer agency, custody and chief compliance officer services for the period ended November 30, 2025, are disclosed in the Statements of Operations. ## 5. DISTRIBUTION & SHAREHOLDER SERVICE FEES

The Funds have adopted a Distribution Plan pursuant to Rule 12b-1 (the "Plan") in the Investor Class only. The Plan permits the Funds to pay for distribution and related expenses at an annual rate of 0.25% of the average daily net assets of the Investor Class. The expenses covered by the Plan may include the cost of preparing and distributing prospectuses and other sales material, advertising and public relations expenses, payments to financial intermediaries and compensation of personnel involved in selling shares of the Funds. Payments made pursuant to the Plan will represent compensation for distribution and service activities, not reimbursements for specific expenses incurred. For the period end November 30, 2025, the Funds incurred the following expenses pursuant to the Plan:

<u>Fund</u>	<u>Amount</u>
Mid Cap Fund . . . . .	\$35,293
Genesis Fund . . . . .	\$34,189
International Fund . . . . .	N/A

The Funds have entered into a shareholder servicing agreement (the "Agreement") where the Adviser acts as the shareholder agent, under which the Funds may pay a servicing fee at an annual rate up to 0.15% of the average daily net assets of the Investor Class and Advisor Class. Payments, if any, to the Adviser under the Agreement may reimburse the Adviser for payments it makes to selected brokers, dealers and administrators which have entered into service agreements with the Adviser for services provided to shareholders of the Funds. Payments may also be made directly

to the intermediaries providing shareholder services. The services provided by such intermediaries are primarily designed to assist shareholders of the Funds and include the furnishing of office space and equipment, telephone facilities, personnel and assistance to the Funds in servicing such shareholders. Services provided by such intermediaries also include the provision of support services to the Funds and includes establishing and maintaining shareholders' accounts and record processing, purchase and redemption transactions, answering routine client inquiries regarding the Funds, and providing such other personal services to shareholders as the Funds may reasonably request. For the period end November 30, 2025, the Funds incurred the following expenses pursuant to the Plan:

<u>Fund</u>		<u>Investor Class</u>	<u>Advisor Class</u>
Mid Cap Fund . . . . .		\$ 1,412	\$ 29,163
Genesis Fund . . . . .		—	314,725
International Fund . . . . .		N/A	1,711

**6. INVESTMENT TRANSACTIONS**

The aggregate purchases and sales, excluding short-term investments, by the Funds for the period end November 30, 2025, were as follows:

<u>Fund</u>	<u>U.S. Government Securities</u>		<u>Other</u>	
	<u>Purchases</u>	<u>Sales</u>	<u>Purchases</u>	<u>Sales</u>
Mid Cap Fund . . . . .	\$ —	\$ —	\$ 6,225,383	\$ 21,124,023

International Fund . . . . .	\$ —	\$ —	\$ 325,848	\$ 246,483

**7. FEDERAL TAX INFORMATION**

The aggregate gross unrealized appreciation and depreciation of securities held by the Funds and the total cost of securities for federal income tax purposes at May 31, 2025, the Funds' most recent fiscal year end, were as follows:

<u>Fund</u>	<u>Aggregate Gross Appreciation</u>	<u>Aggregate Gross Depreciation</u>	<u>Net Appreciation</u>	<u>Federal Income Tax Cost</u>
Mid Cap Fund . . . . .	\$ 32,060,963	\$(10,498,959)	\$ 21,562,004	\$ 90,531,088
Genesis Fund . . . . .	108,509,546	(49,062,975)	59,446,571	444,929,540
International Fund . . . . .	402,367	(180,721)	221,646	1,969,539

The difference between book-basis and tax basis unrealized appreciation is attributable primarily to the differences in tax treatment of wash sales and passive foreign investment companies.

At May 31, 2025, the Funds' most recent fiscal year end, components of accumulated loss on a tax-basis were as follows:

<u>Fund</u>	<u>Undistributed Ordinary Income</u>	<u>Undistributed Long-Term Capital Gains</u>	<u>Net Appreciation</u>	<u>Total Distributable Earnings</u>
Mid Cap Fund . . . . .	\$ 175,707	\$ 1,854,669	\$ 21,562,004	\$ 23,592,380
Genesis Fund . . . . .	—	10,054,959	59,446,571	69,501,530
International Fund . . . . .	28,812	48,388	221,646	298,846

As of May 31, 2025, the Funds' most recent fiscal year end, the Funds did not have any capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital, and ordinary losses which occur during the portion of the Funds' taxable year subsequent to October 31 and December 31, respectively. ### APPROVAL OF INVESTMENT ADVISORY AGREEMENT – Reinhart Partners, LLC (Unaudited)

---

At a meeting of the Board of Trustees of Managed Portfolio Series (“Trust”) on September 23, 2025, the Trust’s Board of Trustees (“Board”), including all of the trustees (“Trustees”) who are not “interested persons” of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (“Independent Trustees”), considered and approved a new Investment Advisory Agreement (“New Advisory Agreement”) between the Trust and Reinhart Partners, LLC (“Reinhart”), the investment adviser to the Reinhart Mid Cap PMV Fund, Reinhart Genesis PMV Fund, and Reinhart International PMV Fund (the “Funds”), on behalf of each of the Funds, subject to approval by the shareholders of each Fund.

In reaching its decision to recommend the approval of the New Advisory Agreement, the Board reviewed materials provided by Reinhart and posed questions to representatives of Reinhart who attended and presented at the Board meeting. In the course of their review, the Trustees considered their fiduciary responsibilities with regard to factors deemed to be relevant to the Funds. The Board also considered other matters, including, but not limited to the following: (1) the nature, extent, and quality of the services provided in the past by Reinhart since each Fund’s inception and the continuation of such services following the Acquisition by Baird of an ownership interest in Reinhart; (2) the performance of the Funds; (3) the fact that there are no material differences between the terms of the New Advisory Agreement and the terms of the previously existing advisory agreement; (4) Reinhart’s representation that, following the Acquisition, there will be no changes to each Fund’s portfolio management personnel and no changes to the way the Funds are managed; (5) the fact that, as part of the Acquisition, current Reinhart employees will increase their ownership interests in Reinhart; (6) Reinhart’s representation that, following the Acquisition, Reinhart will continue to operate as an independent investment manager; (7) the fact that Reinhart’s founder and control person, Mr. James E. Reinhart, will continue to own an equity interest and serve as a Board member of Reinhart; and (8) the fact that the fee structure under the New Advisory Agreement will be identical to the fee structure under the previously existing advisory agreement and that Reinhart has agreed to maintain each Fund’s current annual operating expense limits.

The Board also evaluated the New Advisory Agreement in light of information the Trustees had requested and received from Reinhart prior to the September 23, 2025, Board meeting, as well as information provided by Reinhart in connection with the August 19-20, 2025, Board meeting, including Reinhart’s presentation at that meeting. Below is a summary of the material factors considered by the Board in its deliberations as to whether to approve the New Advisory Agreement and the Board’s conclusions.

*Nature, Extent and Quality of Services Provided to the Funds.* The Trustees considered the scope of services that Reinhart would provide under the New Advisory Agreement, noting that such services include, but are not limited to, the following for each Fund: (1) investing the Fund’s assets consistent with the Fund’s investment objective and investment policies; (2) determining the portfolio securities to be purchased, sold, or otherwise disposed of and the timing of such transactions; (3) voting proxies, if any, with respect to the Fund’s portfolio securities; (4) maintaining the required books and records for transactions that Reinhart effects on behalf of the Fund; (5) selecting broker-dealers to execute orders on behalf of the Fund; and (6) monitoring and maintaining the Fund’s compliance with policies and procedures of the Trust and with applicable securities laws. The Trustees considered the qualifications, experience and responsibilities of the portfolio managers to each Fund as well as Reinhart’s resources and compliance structure, including information regarding its compliance program, its chief compliance officer and Reinhart’s compliance record. The Trustees noted that Reinhart had participated in the August 19-20, 2025, and September 23, 2025, Board meetings and during the course of the prior year had provided additional information about each Fund’s performance and the services provided by Reinhart, including its role as each Fund’s valuation designee. The Trustees also considered Reinhart’s overall financial condition and business continuity plan. The Trustees concluded that Reinhart has the quality and depth of personnel, resources, investment methods and compliance policies and procedures essential to performing its duties under the New Advisory Agreement and that the nature, overall quality and extent of such management services would be satisfactory.

*Fund Historical Performance and the Overall Performance of Reinhart.* In assessing the quality of the portfolio management delivered by Reinhart, the Trustees reviewed the performance of the Mid Cap Fund, Genesis Fund, and International Fund on both an absolute basis and in comparison to an appropriate benchmark index, each Fund’s Morningstar category (“Category”), as well as a smaller sub-set of peer funds as constructed using publicly-available data provided by Morningstar, Inc. and presented by Barrington Financial Group, LLC d/b/a Barrington Partners, an independent third-party benchmarking firm, through its cohort selection process (“Cohort”), and the composite of separate accounts that Reinhart manages utilizing a similar investment strategy as that of each Fund, as applicable.

---

When comparing each Fund's performance against its respective Category and Cohort, the Trustees took into account that the investment objective and strategies of each Fund, as well as each Fund's level of risk tolerance, may differ significantly from funds in the Category and Cohort.

- **Mid Cap Fund.** The Trustees noted that the Fund had underperformed both the Category and Cohort averages, as well as underperformed its benchmark index and a broader market index, for all periods presented as of June 30, 2025. The Trustees noted that the Fund's Investor Class and Advisor Class did not perform as well against the benchmark index as compared to the Institutional Class, but that these classes have a 12b-1 fee and/or a shareholder servicing fee, which is not necessarily the case for the funds included in the Category and Cohort. The Trustees also considered that the Fund's performance was generally consistent with the returns of the Adviser's composite for accounts with a similar strategy over all relevant time periods.
- **Genesis Fund.** The Trustees noted that the Fund had outperformed both the Category and Cohort averages for all periods presented as of June 30, 2025, and had outperformed its benchmark index, for all periods presented as of June 30, 2025, while underperforming the broader market index for all periods presented, other than the five-year period, ended June 30, 2025. The Trustees also considered that the Fund's performance was generally consistent with the returns of the Adviser's composite for accounts with a similar strategy over all relevant time periods.
- **International Fund.** The Trustees noted that the Fund had outperformed the Cohort and Category averages for the year-to-date, one-, and three-year periods ended June 30, 2025. The Trustees noted that the Fund had also outperformed its benchmark index for all periods presented as of June 30, 2025. The Trustees also considered that Reinhart does not manage other accounts or composites with the same or substantially similar strategies as the Fund.

After considering all of the information, the Trustees concluded that the performance obtained by Reinhart for each Fund was reasonable under relevant market conditions. Although past performance is not a guarantee or indication of future results, the Trustees determined that the Funds and their shareholders were likely to benefit from Reinhart's continued management.

*Cost of Advisory Services and Profitability.* The Trustees considered the annual advisory fee that each Fund pays to Reinhart under the New Advisory Agreement, as well as Reinhart's profitability from services that it rendered to each Fund during the 12-month period ended June 30, 2025. The Trustees also noted favorably the expense limitation agreement under which Reinhart contractually agreed to reduce its advisory fees and, if necessary, reimburse each Fund for operating expenses, as specified in the Funds' prospectus, and observed that Reinhart had waived a portion of its management fee with respect to each Fund over the 12-month period ended June 30, 2025. The Trustees further considered that the management fees Reinhart charges to separately managed accounts with strategies and asset levels similar to those of the Mid Cap Fund and Genesis Fund are lower than the advisory fee for each Fund, respectively. They also noted, however, that Reinhart has additional responsibilities with respect to the Funds, including the preparation of Board and shareholder materials, which justify the higher fee. The Trustees observed that the International Fund's strategy is not offered in a separately managed account. The Trustees considered the reasonableness of Reinhart's profits from its service relationship with each Fund, noting that the International Fund had not been profitable over the 12-month period ended June 30, 2025.

*Comparative Fee and Expense Data.* The Trustees considered a comparative analysis of contractual expenses borne by each Fund and those of funds within the same Category and Cohort as of June 30, 2025.

- **Mid Cap Fund.** The Trustees noted that while the Fund's advisory fee was higher than the Category and Cohort averages, the total expenses of the Fund's Institutional Class (after waivers and expense reimbursements) were below the Category average and equal to the Cohort average. Regarding the Fund's Advisor Class and Investor Class, the Trustees noted that these classes include shareholder servicing and/or Rule 12b-1 fees, which is not necessarily the case for the funds included in the Category and Cohort.

---

- **Genesis Fund.** The Trustees noted that while the Fund’s advisory fee was higher than the Category and Cohort averages, the total expenses of the Fund’s Advisor Class (after waivers and expense reimbursements) were below the Category and Cohort averages. Regarding the Fund’s Investor Class, the Trustees noted that this class includes shareholder servicing and Rule 12b-1 fees, which is not necessarily the case for the funds included in the Category and Cohort.
- **International Fund.** The Trustees noted that the Fund’s advisory fee was higher than the Category and Cohort averages, and its total expenses (after waivers and expense reimbursements) were higher than the Category average but lower than the Cohort average. The Trustees further considered that the Fund includes a shareholder servicing which is not necessarily the case for the funds included in the Category and Cohort.

While recognizing that it is difficult to compare advisory fees because the scope of advisory services provided may vary from one investment adviser to another, the Trustees concluded that Reinhart’s advisory fee with respect to each Fund continues to be reasonable.

*Economies of Scale.* The Trustees considered whether the Funds would benefit from any economies of scale, noting that the investment advisory fees for the Funds do not contain breakpoints. The Trustees noted that at current asset levels, it was not necessary to consider the implementation of fee breakpoints but agreed to revisit the issue in the future as circumstances change and asset levels increase.

*Other Benefits.* The Trustees considered the direct and indirect benefits that could be realized by the Adviser from its relationship with the Funds. The Trustees considered the extent to which Reinhart utilizes soft dollar arrangements with respect to portfolio transactions and considered that Reinhart does not utilize any affiliated brokers to execute the Funds’ portfolio transactions. While the Trustees noted Rule 12b-1 fees may be paid for shareholder and distribution services performed on behalf of the Funds, the Trustees also observed that the Adviser was incurring its own distribution expenses on behalf of the Funds. The Trustees considered that Reinhart may receive some form of reputational benefit from services rendered to the Funds, but that such benefits are immaterial and cannot otherwise be quantified. The Trustees concluded that Reinhart does not receive additional material benefits from its relationship with the Funds.

*Conclusions.* The Trustees considered all of the foregoing factors. No single factor was determinative in the Board’s decision to approve the New Advisory Agreement for the Fund, but rather the Board based its determination on the total mix of information available to the Trustees. Based on a consideration of all the factors in their totality, the Board, all of whom are Independent Trustees, determined that the New Advisory Agreement with Reinhart, including the advisory fees to be paid thereunder, was fair and reasonable, and approved the New Advisory Agreement as being in the best interest of the Fund and its shareholders, and determined to recommend that shareholders approve the agreement.
